Practical Coverage at Recommended DFT	589 to 785 ft ² /gallon	610 to 812 ft ² /gallon
Solids by Volume	73%	76%
VOC	<50 g/L	

APPLICATION

Apply by brush, roller or spray. A good quality, natural bristle brush will make application easier. Select a roller cover suited for the texture of the surface to be coated. Airless tip sizes of .013 to .015 are recommended. Apply the product in full even coats and maintain a wet edge. Allow the product to dry between coats. Do not thin.

COLOR CONFIDENCE

Bring us your vision, and we'll make it come true. Diamond Vogel's color system provides a wide arrange of sumptuous colors to make your project look magnificent. We have carefully developed tools to make finding the right color for you effortless, and we will keep you informed of the latest

trends in color with meticulously researched color forecasts. Easily find all of our color information online at www.diamondvogel.com/color. Gorgeous colors in combination with our fantastic paint, like Ascend Alkyd Semigloss Enamel, will fulfill your vision of the perfect project.

DIAMOND VOGEL

Our founder, Andrew Vogel - a colorful but stubborn Dutch immigrant - decided that the only paint good enough for the barns and homes in the varied and often harsh Midwest climate was paint he perfected himself. So, from a modest "workshop laboratory," a paint company

was born. Three generations, seven manufacturing facilities, 70 service centers and millions of gallons of paint later, we are still as stubborn. We still insist on perfecting our own formulas, producing and distributing our own products and servicing our customers with the kind of passion and commitment worthy of Andrew's name.
