

Diamond  Vogel®

Permacryl®

INTERIOR ACRYLIC LATEX ENAMEL

Permacryl Interior is a premium-quality interior latex enamel. It is formulated for superior washability and durability.

Formulated for use on residential and commercial interior walls, ceilings, trim, and doors. Designed as a finish coat for interior drywall, wood, plaster, and masonry surfaces.

The Ultimate in Luxury and Durability

Permacryl Interior Latex Enamel delivers exceptional quality and value. Formulated for superior performance, Permacryl Interior offers unparalleled washability and durability, providing hassle-free, long-term protection. Permacryl Interior's carefully designed application characteristics maintain spatter resistance, making painting less messy and clean-up much easier. Permacryl Interior's excellent hide saves you valuable time while painting and provides amazing touch up—reducing frustration and keeping your walls looking great.

Practical Coverage at Recommended DFT	281 to 374 ft ² /gallon	290 to 387 ft ² /gallon	286 to 374 ft ² /gallon	288 to 384 ft ² /gallon
Solids by Volume	35%	36%	36%	36%
VOCs	See Technical Data Sheet			

OUR FAMILY'S COMMITMENT TO YOU

Andrew Vogel, our founder, decided that the paint he perfected himself was the only paint good enough for houses and barns in the harsh and varied Midwest climate. In 1926, a paint company was born from a modest workshop laboratory. Four generations and millions of gallons of paint later, we still carry on the legacy of our

founder. Through our manufacturing facilities, stores, and dealers, we continue to provide the outstanding value and service that our company was built on. From perfecting our own formulas to producing and distributing our own products, our commitment and passion continues to be worthy of Andrew's name.
