EverCryl

EXTERIOR ACRYLIC LATEX FINISH

EverCryl is the foundation of a quick and successful exterior painting project.

Formulated for use on residential or commercial exteriors with new and previously painted wood, hardboard, vinyl siding, cement board, aluminum, galvanized metal, and masonry surfaces down to 35°F. Ideal for use on siding, gutters, soffits, and foundations.

An Efficient Solution with Great Results

EverCryl Exterior Acrylic Latex meets the demands of discerning painting contractors with its ability to be used at low temperatures and easily applied by brush, roll, or spray. The long-lasting acrylic formula ensures that EverCryl will look great for years on exterior surfaces and resist fading so your colors remain vibrant and rich. EverCryl works with a purpose-built set of colors, offering effortless hiding, moving you quickly on to your next job. Available in both flat and satin, EverCryl Exterior Acrylic Latex is the foundation of quick and successful exterior painting projects.

Recommended Dry Film Thickness per Coat	2.0 to 3.0 mils	
Practical Coverage at Recommended DFT	176 to 265 ft ² /gallon	155 to 233 ft ² /gallon
Solids by Volume	33%	29%
VOCs	See Technical Data Sheet	

OUR FAMILY'S COMMITMENT TO YOU

Andrew Vogel, our founder, decided that the paint he perfected himself was the only paint good enough for houses and barns in the harsh and varied Midwest climate. In 1926, a paint company was born from a modest workshop laboratory. Four generations and millions of gallons of paint later, we still carry on the legacy of our

founder. Through our manufacturing facilities, stores, and dealers, we continue to provide the outstanding value and service that our company was built on. From perfecting our own formulas to producing and distributing our own products, our commitment and passion continues to be worthy of Andrew's name.
