

Diamond  Vogel®

FleetTech™

WATER REDUCIBLE ENAMEL

FleetTech is a premium water-reducible enamel designed for ease of use without sacrificing exceptional performance qualities.

For use on properly prepared ferrous and some non-ferrous metal surfaces.

FleetTech Water Reducible Enamel

Designed for the waste equipment industry and tank manufacturers, FleetTech is a premium water-reducible enamel that exhibits excellent gloss retention as well as weathering-, adhesion-, corrosion-, and water-resistant properties. The advanced water-reducible formulation makes FleetTech incredibly easy to apply, and a longer shelf life than traditional water reducible coatings means FleetTech can be ready when and where you need it. With proper cleaning and surface preparation, FleetTech can also provide very good one-coat protection on all ferrous and some non-ferrous metal surfaces. For optimal performance, application of a Diamond Vogel water reducible primer is recommended.

FEATURES

- Excellent gloss retention
- Corrosion- and water-resistance
- Great adhesion
- Resistance to weathering
- One-coat protection (with proper metal cleaning)

FIELD OF APPLICATION

Waste industry equipment such as dumpsters, trucks, machinery, and properly prepared ferrous and some non-ferrous metal surfaces.

PHYSICAL PROPERTIES

Weight:	8.3 to 10 lb/gal
Solids Weight:	25% to 40%
Solids Volume:	22% to 32%
Theoretical Coverage:	350 to 520 sq. ft/gal at 1.0 mil DFT
Gloss at 60°:	70+
Resin Type:	Water Reducible Alkyd

* For VOC information, see Technical Data Sheet
