Ideal for industrial OEM uses, including agricultural and construction equipment.

Nexgen Industrial Enamel

The Nexgen Enamel system has been developed as a fast-drying, versatile, industrial finishing enamel for manufacturers of metal products. It offers a quick dry time, high gloss, and excellent color and gloss retention. Nexgen is ideal for industrial OEM uses, including agricultural and construction equipment.

FEATURES

- Quick dry time
- Excellent color retention
- High-gloss appearance
- Versatile across many markets

FIELD OF APPLICATION

Nexgen may be used for one-coat, direct-to-metal applications; however, a primer is required for long-term corrosion protection. Primers should be tack-free before top coating. Nexgen may be spray or dip applied. IG-0267 Urethane Activator can be used from 6A:1B to 10A:1B for enhanced cure, gloss, abrasion resistance, and exterior durability. See data sheet for details.
