

Diamond  **Vogel**[®]

Iron Prime 250

FAST DRY PRIMER

Iron Prime 250 combines the trusted performance of solvent-based formulation with the ability to meet today's environmental standards.

Apply to interior or exterior surfaces, ferrous metals, previously primed surfaces, tanks, conveyors, machinery, and structural or support steel.

Iron Prime 250 Fast Dry Primer

Iron Prime 250 combines the trusted performance of solvent-based formulation with the ability to meet today's environmental standards. The fast recoat time makes Iron Prime 250 an excellent choice for production environments or when time is critical. The excellent corrosion resistance and adhesion over properly prepared steel will protect your substrates from costly deterioration.

Designed to provide excellent gloss holdout for a wide variety of topcoats, Iron Prime 250 will enhance the appearance of your finish coats. Iron Prime 250 is lead- and chromate-free, meets the requirements of LEED EQ 4.2, and exceeds the requirements of SSPC-Paint 15 type 1. It meets MPI (Masters Painters Institute) #76 and #79.

PHYSICAL PROPERTIES	FLAT
Finish	0-5 @ 60°
Resin Type	Modified Alkyd
Dry Time to Touch	10 to 20 minutes at 70°F and 50% Relative Humidity
Dry Time to Recoat	1 to 1.5 hours ≤ 1 month at 70°F and 50° Relative Humidity
Recommended Dry Film Thickness per Coat	2.0 to 3.0 mils
Practical Coverage at Recommended DFT	315 to 473 ft ² /gallon
Solids by Volume	57%-59%
VOCs	See Technical Data Sheet

OUR FAMILY'S COMMITMENT TO YOU

Andrew Vogel, our founder, decided that the paint he perfected himself was the only paint good enough for houses and barns in the harsh and varied Midwest climate. In 1926, a paint company was born from a modest workshop laboratory. Four generations and millions of gallons of paint later, we still carry on the legacy of our

founder. Through our manufacturing facilities, stores, and dealers, we continue to provide the outstanding value and service that our company was built on. From perfecting our own formulas to producing and distributing our own products, our commitment and passion continues to be worthy of Andrew's name.
