Vogel Paint Announces Powder Coatings Manufacturing Facility Open House and Tours

Orange City, Iowa, October 26, 2017 – Vogel Paint, Inc. announced today that it has completed Phase One of a five-year, \$29.3 million expansion plan for its operation located at the company's headquarters in Orange City, Iowa. The first phase of the project involves the doubling of its powder coatings production facility. Vogel Paint, founded in 1926, entered the powder coatings market in the mid-1990s and built a manufacturing plant dedicated to that new technology in 2002.

The Phase One expansion includes a 91,000 square foot addition to the current building and allows for doubling its output capacity in the years to come. The investment for the Phase One is valued at an estimated \$19.5 million. The climate-controlled, state-of-the-art plant is completed, and production has commenced.

A community open house event will take place at the facility on Thursday October 26, 2017 from 3:00 pm to 5:00 pm. A short ribbon cutting event at 3:00 pm will be followed by tours being made available to the community.
