

Diamond  **Vogel**[®]

Weather-Plate

EXTERIOR 100% ACRYLIC LATEX

Weather-Plate is designed for durability, performance, and value on both new construction and repaint projects.

Formulated for use on residential or commercial exteriors including new or previously painted wood, hardboard, vinyl siding, cement board, aluminum, galvanized metal, and masonry surfaces. Ideal for use on siding, gutters, soffits, and foundations.

Long Lasting, Sensational Results

Weather-Plate 100% Acrylic Latex Exterior Finish is a fantastic option for your projects. It provides exceptional, long-term protection while being extremely easy to use. Weather-Plate releases quickly and effortlessly from a brush while still applying smoothly by airless spray, making the resulting finish look amazing. Outstanding touch up reduces frustrations at the close of the job, and enhanced flexibility guards against cracking and peeling. Weather-Plate is perfect for both new and repaint projects on numerous substrates.

Practical Coverage at Recommended DFT	276 to 363 ft ² /gallon	
Solids by Volume	34%	
VOCs	<100 g/L	<150 g/L

OUR FAMILY'S COMMITMENT TO YOU

Our founder, Andrew Vogel, decided that the only paint good enough for the barns and homes in the varied and often harsh Midwest climate was paint he perfected himself. So in 1926, from a modest "workshop laboratory," a paint company was born. Four generations, seven manufacturing

facilities, 63 service centers, and millions of gallons of paint later, we are still as stubborn. We still insist on perfecting our own formulas, producing and distributing our own products, and servicing our customers with the kind of passion and commitment worthy of Andrew's name.
