

Diamond  Vogel®

# PermAcryl Exterior

PREMIUM 100% ACRYLIC LATEX

**PermAcryl Exterior** offers premium performance and results for exterior walls, trim, and doors.

Formulated for use on residential or commercial exteriors on new and previously painted wood, hardboard, vinyl siding, cement board, aluminum, galvanized metal, and masonry surfaces down to 35°F. Ideal for use on siding, gutters, soffits, and foundations.

# The Ultimate in Protection and Appearance

**PermAcryl Exterior 100% Acrylic Latex** delivers exceptional quality and value. Its formulated for superior performance while offering extraordinary fade resistance and durability, providing years of hassle-free living. It offers extremely forgiving application by brush, roller, or spray. PermAcryl Exterior allows for application in temperatures as low as 35°F, maximizing application flexibility and extending the painting season. It is perfect for both residential and commercial projects.

Solids by Volume	40%	38%	36%
VOCs	<100 g/L	<100 g/L	<150 g/L

## OUR FAMILY'S COMMITMENT TO YOU

Our founder, Andrew Vogel, decided that the only paint good enough for the barns and homes in the varied and often harsh Midwest climate was paint he perfected himself. So in 1926, from a modest "workshop laboratory," a paint company was born. Four generations, seven manufacturing

facilities, 64 paint stores, and millions of gallons of paint later, we are still as stubborn. We still insist on perfecting our own formulas, producing and distributing our own products, and servicing our customers with the kind of passion and commitment worthy of Andrew's name.
